

## CONGRATULATIONS LITERACY GREEN BAY

By Shirley Schantz

What a learning experience I have had. The **Each One Teach One** concept was a perfect way to help others with their language transition. Many thanks to Literacy Green Bay and its special people who were supportive in every way. Each of my students had made a big step by coming to America, often with difficulty, and welcomed a new way of life.

Now 22 years later, I am with my thirteenth student. In helping others learn a new culture, I learned theirs. In understanding their journey to American I learned the value of being here. Their friendships were rewarding. How blessed it was to give and realize in turn that I received as much.
